Dr. Miyuki Katai
President
Japanese Association for Gender-Specific Medicine (JAGSM)

Dear Dr. Katai,

It is my pleasure to express to you my most sincere congratulations for your appointment as President of the Japanese Association for Gender-Specific Medicine (JAGSM) from January 2024.

As the first female Mexican Ambassador to Japan, it is always encouraging for me to see more women like you assuming leadership roles in this country. Your pioneering efforts in gender medicine and women's health as well as your innovative contributions to FemTech like the new medical technology "AI Diagnosis Assistance Navigation System WaiSE", resonate deeply with our shared commitment to gender equality and the empowerment of women in our global society.

I am confident that under your leadership, JAGSM will continue to flourish and make significant contributions in gender-specific medicine, enhancing healthcare outcomes for all.

I reiterate to you my congratulations and best wishes for your continued success in this new role, and I look forward to the possibility of future collaboration between our countries in the field of medical research and gender equality.

Sincerely,

Melba Pría
Ambassador of Mexico
